Application No. 12/00671/FUL.

9th December, 2012

Dear Sirs, I refer to your letter of the 2nd November re building at 215, Meekley Road, Rugeley.

What upset me is that on the first application this was turned down because of the proposed three property development ie there should be two properties. Now everything appears to be acceptable with three properties subject to minor alterations ie trees etc. What has changed?

No matter what changes you make this means that your proposed new building will result in a complete blocking to my kitchen window something which has stood for over twenty years. This does seem very severe and detrimental to my property and as such meets my complete rejection. Please raise this point with your Committee and hopefully obtain a rejection of these plans. I await your response.

Yours faithfully,
