2/9/2013 Page1 Dear Sir or Madam

I have enclosed the additional evidential documents for a

(Resubmitted Established Use Application with additional documents) and respectfully submit when considering your determination the combined evidence documents support and corroborate each other and is compelling evidence to establish the continued use for the relevant period in particular the following documentation & details listed below, as previously explained there is a risk of redundancies at the site and I would be extremely grateful if would treat this application resubmission as very urgent I disagree with the following points in your assessment of previously submitted documentation. RE The exemption granted in 1999 which you state only shows Mr. Brown was only contemplating or intended running a dismantling facility but I submit it is not really credible and highly unlikely that a exemption would be acquired if it was not required, my submission is the site was operating as a vehicle dismantlers continuously shortly after the exemption date and throughout the relevant period and is confirmed by historical imagery from Google Earth that show that the yard stocked with dismantled vehicles and is further confirmed by the dismantling records for the period 1999 to 2013. Re your statement that the NSEC website does not feature the Good Companions or Hanningfield depots, due to the difficult trading situation and rising costs the decision was made in 2012 to remove both sites from the web pages and close the rented premises at Hanningfield and operate the Good Companions site on a substantially reduced scale whilst it was advertised to market for rental or sale. Yours Faithfully

Relevant documents & details

Dismantled / scrapped vehicle report for the period 1/1/2003 to 30/8/2013 the volume of vehicles dismantled and scrapped over seven thousand.

Dismantled vehicles report 2/9/2013/ (93 vehicles undergoing dismantling).

Due to a complete crash/failure for invoicing recycled parts software the database proved to be nrecoverable a new invoice system was installed on 22/8/2005 example reprints of invoices for the relevant period are enclosed.

A paper system was used for credit notes, due to the software failure invoices for 30/6/2003 to 22/8/2005 are not available, copies of unredeemed credit notes to cover this period are enclosed. Previously in the belief that it was a requirement to show established use for over 10 years paper copies of credit notes & receipt were supplied for the period prior to 30/06/2003 although the dismantling reports provide evidence of the volumes of vehicles dismantled additional documents are to cover the relevant period from 30/06/2003 up to the commencement of the new electronic software.

Forge Garage statement confirms site activity history.

Site insurance cover vehicle stock value up to £100,000 (continued)

Re pre application discussions

Advice from Rachael Collard in early june 2013 was to apply for established use certificate and supply evidence for continuous use over 10 years.

26/8/13 received refusal of june 30<sup>th</sup> application phoned RDC legal department to enquire information about adding additional evidence and amended applications procedures and was informed they did not know the procedures, contacted Rachael collard was informed to apply for amended application with the additional evidence and no new fee would be required.

30/8/13 contacted RDC planning dept to double check exactly what was required for the amended application explaining I intended to submit on 2/8/13, and was informed that the application would be a separate one for a new date period requiring the previous evidence supplied and any additional evidence.

To whom it may concern,

I have been a tenant of NSEC renting the car sales site at their premises Good Companions Garage, Chelmsford Road, SS11 8SY since March 2011. For 30 years I have been a customer of NSEC at their various branches, I have also been a regular customer at their recycling centre Chelmsford Road branch since it opened in 1997 to the present date.

I confirm the following activities were always evident throughout the period 1997 to August 2013:

1. Car breaking / dismantling / recycled parts sales on a large scale.

2. The rear yard was stocked with a large volume of damaged and partially dismantled vehicles.

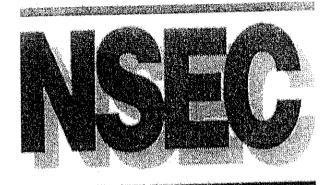

3. Car sales have always been in operation on site.

4. In March 2011 I took over the operation of the car sale site from Oak Motors, who had operated car sales there since 2002 and I continue to operate there.

Yours faithfully

Anthony Muir Proprietor

Our ref: XLET7 Confirmation of Registration

Your ref:

Reg. Customer I.D. No: a000131190

Date: 08/10/2010

Dear Mr Brown

## The Environmental Permitting (England and Wales) Regulations 2010 Confirmation of Registration

Exemption Ref:

EPR/JH0365GQ/A001

Location of the

NSEC Chelmsford Road, Rawreth, Wickford, Essex, SS11 8SY,

Operation:

Following receipt of your submission, we can confirm that we have now registered the operation(s) listed on the attached schedule, as exempt under the above Regulations, at the site shown above.

If any of these exempt operations were previously authorised by a permit which you now consider to be redundant, please contact our Customer Services on 08708 506 506 so that we can explain what will happen to your permit.

The exemption(s) will remain valid at this site until 07/10/2013. We will remind you that the exemption(s) are due for renewal at least one month before this date. You can renew at any time during the month prior to expiry but if you fail to renew during this period, you will have to make a new application.

If your operations change at any time during the registration period and you wish to add or remove exemptions at your site, you can do this by contacting one of our customer service providers on 08708 506 506.

Although the above operations are now registered they remain so only whilst you operate within the terms and conditions of those exemptions and whilst you do not cause pollution, harm to human health or detriment to amenity. It is a criminal offence to carry out these types of operation without an exemption or environmental permit. It is your responsibility to ensure that you know what the legislation requires and that you operate within it.

The Environment Agency does not endorse any commercial business so you cannot use our logo on your website or promotional literature. However you can state that you are registered as exempt by the Environment Agency, if this is the case, and have a link to our website

Salvage Agents

30/8/2013

I have been employed as the general manager of NSEC since 1979 and worked at the Good Companions Garage site from its acquisition in march 1997 overseeing the initial set up and daily operations of their vehicle dismantling facility and parts recycling centre this was a large scale operation ,by inspecting the the company database I can confirm the the volume of vehicleS dismantled in the good companions garage facility. December 2009 to August 2013 is 9,351 vehicles, I am the TCP. for the NSEC group & holder of the relevant WAMITAB registered qualification covering the waste directive legislation framework and environment agency/ DEFRA regulations, as the company expanded I operated from the other depots as the company representative for waste management I have continued to monitor that sites are achieving NSEC standards and ensure continuing compliance with these regulations I have continued to visit all NSEC branches including the Good Companions Garage site approximately once every 4 to 8 weeks to monitor and inspect site operations and performance.

Yours faithfully

R.Waterman
