There is inadequate sewerage service on this site, it is a site of special beauty ie fishing lakes and some small green space left in what is classified as a village. Overdevelopment in the village itself means that gp surgery, schools and road infrastructure are already not coping. Drainage in alexandra road is an issue due to last building overdevelopment allowed (exceeded what was allowed but no action by yourselves) Flooding higher in the village since the housing on petrol station was allowed without appropriate structural works to support it. Nobody will be able to get out of the village to get to work as already the bottle neck at rush hour means we are all queueing excessively, then we reach the A127 where we queue excessively. We have no tip system, we have no honest or accountable police system, council services are diabolical. This company are describing making an undisclosed "donation" to yourselves when this application goes through, DISGUSTING, no amount of money will fix.
