For the attention of Mr. Peter Fletcher.

We have reviewed the plans for the proposed extension to no. 12 High Mead and are concerned that if the extension is built to the boundary (party wall) it will severely restrict light to our kitchen.

Please bear in mind that when we extended (circa 2002) we built approx. 5 feet within the boundary in order to preserve light to no.12.

Your comments and observations will be appreciated.
