Hi Planning.applications,

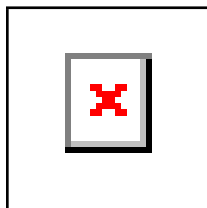

Please see comments from our client in respect fo the resubmission. :  
Hi Danielle,

Thank you for the resubmission of the application to Rochford Council, however following my telephone conversation with Kevin yesterday, it was agreed that the application would point out the fact the the resubmission was based on this building being a parapet roof and not a fascia and gutter so the are fully aware of this, but I cannot see any reference to this on the application?

Our drawings show that these have been amended and noted also on the application form whereby the Eves have no height as this is no longer showing, and is clearly demonstrated on the 3-D images also due to the parapet wall being added. Please can you log the above on file ready for the planning officer to view once validated.

Kindest Regards,

Danielle Perry

Good Morning,

Please find the Prior Notification application for the above named Property.

Find attached the Plans and map for the submission, and we look forward to receiving the validation notice for our client.

Kindest Regards,
