Comment	<p>BADGERS; We feed badgers every night which come from this site and return that site. Has this been accessed?</p> <p>HEDGEROW; Destruction of established hedgerow to accommodate new road. Unnecessary and on a difficult curve for speed control.</p> <p>TREE LOSS; Further loss of mature trees/conifers providing wildlife havens.</p> <p>TRAFFIC; Lower Rd is the ONLY road entering/exiting Hullbridge, a known rat run for traffic avoiding A127. Yet to take traffic of 600plus homes in Ashingdon. Recent gas works have caused chaos with disruption to all residents and additional AIR POLLUTION.</p> <p>INFRASTRUCTURE; Not enough to sustain new housing. Food shopping and work possibilities nil , all require road travel out of Hullbridge. Doctors and school over subscribed.</p> <p>SITING OF PEDESTRIAN CROSSING; Dangerous siting due to speed and curve of road. Lower Rd is a known racing circuit at weekends, no speed restrictions in place despite residents constant complaints.</p> <p>DAMAGE TO OUR PROPERTY; We have been recently assessed for damage to our house due to cracks and floor movement, told by structural surveyor that this is partly due to vibration through house from large commercial vehicles now using Lower Rd. Industrial commercial vehicles needed to complete this development with clog the road and damage our house further.</p> <p>ENVIROMENTAL POLLUTION; The noise, dust and continuous road use of heavy vehicles will impact all residents during construction. The number of possible vehicles per proposed property will have continuing impact on all aspects of clean environment for existing residents . Hullbridge cannot take more internal or outskirt development and still be a healthy place to live.</p>
