Comment	Any proposed development is an absolute disgrace and complete disregard to local residents need for keeping what little remains of our local green natural spaces and wildlife. This development will ruin the quiet approach to Gusted Hall Lane which is visited by many as a natural respite. Families and individuals, horse riders, bicycle enthusiasts of all ages absolute love and enjoy walking and appreciating the natural green spaces that surrounds mount bovers, gusted hall and the connection and stunning rural walks to the back of Hockley woods for leisure because it enables the community to escape the busyness of the surrounding towns in Rochford, Hawkwell and Hockley. Not only will this create yet again more traffic without any added infrastructure to roads, which is often already at a standstill, the pollution it will creat and loss of our stunning green spaces is just unfathomable! IÔÇÖve been riding horses, walking my dogs, taken my family for walks around this areas since my childhood (more than 50 years). It would be an absolute tragedy if it is lost to more cement, bricks and mortar. This idea should be abandoned immediately. Shame on our councils, shame on our government for even thinking this might be a good idea. Go develop on brownfield sites, run down industrial sites if you must, but donÔÇÖt wreck what little remains of our green natural spaces.
