Comment	<p>These plans should not be approved.</p> <p>Hockley / Hawkwell is becoming an overly congested area with ongoing roadworks, traffic issues and a greater increase in noise, air and light pollution. Furthermore, the immediate risk to wildlife, nature and the natural environment is something that must not be compromised. These fields are both an intrinsic and local beauty of the area that is part of Hockley / Hawkwell's natural and historical culture. With the area having become more populated over the recent decades; a further loss of the countryside would be devastating for those concerned with the area.</p> <p>Finally, I appreciate the efforts of trying to build an educational setting; however I feel the area of it being positioned onto a main road would not be suitable. Also, I believe that the local schools already have a good support network in regard to facilitating pupils with SEND.</p>
