

Woodlands Section Consultation Response from Patrick McKenna

09/00422/CM - Lovedown Farm, Lower Road, Hullbridge

The activities mentioned in the planning application will potentially have significant impacts upon protected species and habitats. The survey (eco) has recommended further ecological survey works - these have not been completed. The ecological submission is inadequate and does not provide all the relevant information required to be able to make an informal assessment of the likely effects of the proposed development. I recommend that the application be refused. It is next to a SSS and SAC site, and there has been no real discussion in relation to this.
