Dear Tony Merry

Below is my initial letter to Rochford District Council

Another website that maybe useful for information on my business is:

www.floataway.co.uk or www.floataway.com

This is the manufacturer I am using for my float tanks.

Kind Regards

Tracy Munn

Subject: Planning for 5a Castle Road, Rayleigh

To The Planning officer

I will shortly be submitting a planning application for change of classification use for an office building at 5a Castle Road, Rayleigh.

I just thought I'd send an initial enquiry just to firstly, confirm the classification for my use, and secondly, to see whether you think there may be any objections to the change of use.

The building in question is 5a Castle Road, Rayleigh. It has currently got the B1 classification for office use. I believe the classification I need is D1. The building is approximatley 2491 sq ft, spread out over 2 floors.

The majority of the building will be used for my business called "The Angel & Float Centre Ltd", but we will be subletting to another company called

Energie - fitness for women, run by Sally Watson. They will lease roughly a quarter of the building with some extra shared use space.

Essentially, the main component of my business, is Floatation therapy.

Floatation therapy is a medical treatment using sensory deprivation within a floatation tank or float room. Years of well documented tests show that floatation tank therapy not only has an immediate effect on pain relief and elimination of stress, it also promotes 'whole-brain' thinking. It is quite simply the most incredible means of stress relief and relaxation available.

We will be a specialist centre where the therapeutic benefits of floatation will be part of other therapies. Floating is excellent preparation for massage, osteopathic and chiropractic manipulation, yoga, reflexology and many other techniques. These services we will also be offering.

There are many benefits to floatation, most of which have been listed here:- http://www.angelandfloatcentre.co.uk/float_centre_web_pages_003.htm

Other therapies we will offer include massage, reiki, reflexology, crystal healing etc. Basically alternative healing therapies.

We will initially have 2 float rooms, and will expand to have 4 float rooms. There will be two treatment / consultation rooms, but will eventually expand to two more.

We hope to employ up to about 10 people eventually. We estimate that we would have about 10-20 customers per day initially, and as we expand that could double.

Energie - fitness for women will have 10 motorised machines that have been manufactured for people with mobility issues and the number of customers they estimate to have are 30-50 per day. They would employ up to 4 staff.

I hope I have given you all the information you need to answer my two questions. If you need any more details, please feel free to contact me.

Thank you for your help.

Kind Regards

Tracy Munn
